

# Klean-Pop™ NEW!!!

The new patent-pending Klean-Pop shower is a revolution in pop-up shower design. When disassembled, the Klean-Pop offers the easy mobility and compact appearance of a suitcase on wheels. One person can move Klean Pop wherever it needs to be, and set up the shower in as little as 2 minutes. Priced competitively with telescoping designs, and more durable than plastic options, Klean Pop answers the growing need for a quality decontamination shower that is inexpensive, durable and easy-to-use.

## Features and Benefits:

- *Compact when collapsed:* Easy and efficient transport and storage. Occupies less space in truck or warehouse than conventional telescoping shower designs
- *Inset Wheels, Built in Handle, & Lightweight Design:* As portable as a suitcase. Easy for one person to move from place to place. Set-back wheel design makes stacking for storage or transport easy. Lighter than conventional telescoping shower designs.

- *Rugged Aluminum Construction:* Rigid and durable when assembled.
- *Unique Set-up Design:* One person set-up in as little as two minutes. Two curtains with rings already mounted on ceiling rods for privacy. Curtains are easily changed or removed when desired, and replacements are available.
- *All-brass, Strategically-located Mixing Valve:* Quality durable fixture designed to last; mounted on ceiling so equipment can be moved through decon.
